Founder's Message

Building a More Transparent Financial Future

Welcome to Riverbanc Technology Ltd.

Riverbanc was founded on a simple belief: every salaried employee deserves transparent access to financial products and the information needed to make informed financial decisions.

Across Zambia, thousands of hardworking salaried employees contribute to the growth of our economy every day. Yet many continue to face unnecessary challenges when seeking financial solutions. Accessing loan products often involves comparing limited information, visiting multiple financial institutions, and making important financial decisions under pressure.

Riverbanc was established in 2026 to help address these challenges through technology.

Our objective is not to replace financial institutions, but to strengthen the relationship between participating commercial banks, licensed microfinance institutions, and the salaried employees they serve. Through our membership-based digital marketplace, Riverbanc Members are empowered to compare financial products, submit digital loan applications, explore loan refinance opportunities, and make informed borrowing decisions within a secure and transparent environment.

As we grow, our commitment remains unchanged. We will continue to invest in technology, governance, information security, regulatory compliance, and meaningful partnerships that create sustainable value for our members and financial institution partners.

While our journey begins in Zambia, our vision extends across Sub-Saharan Africa. We aspire to build one of Africa's most trusted financial technology marketplaces by connecting millions of salaried employees with regulated financial institutions through innovation, transparency, and responsible business practices.

Company Overview

Who We Are

Riverbanc Technology Ltd is a Zambian financial technology company that operates a secure membership-based digital marketplace connecting salaried employees with participating commercial banks and licensed microfinance institutions.

Through the Riverbanc Platform, members can compare financial products, submit digital loan applications, explore loan refinance opportunities, and make informed financial decisions through a secure, transparent, and technology-driven experience.

Riverbanc combines innovation, responsible governance, and strategic partnerships to simplify the borrowing journey while enabling financial institution partners to engage with verified loan applications through efficient digital processes.

The company is committed to maintaining high standards of professionalism, information security, regulatory compliance, and customer service as it expands its operations across Zambia and, over time, into selected Sub-Saharan African markets.

The Riverbanc Promise

At Riverbanc, we are committed to delivering transparency, security, and innovation in every interaction.

We empower our members to make informed financial decisions while fostering trusted partnerships with regulated financial institutions. Through responsible technology, ethical business practices, and continuous innovation, we are building a financial marketplace that creates lasting value for individuals, institutions, and communities across Africa.

Long-Term Vision	Expansion into nine Sub-Saharan African countries

Our Story

Riverbanc was inspired by the hard work that salaried employees contribute every day to keep the economy moving. Despite their vital role, many continue to face challenges such as identity theft, overleveraged salaries, and limited access to clear information about the financial products best suited to their individual circumstances.

The financial services sector offers a wide range of lending solutions, yet comparing products across institutions can be difficult. As a result, financial decisions are often made under pressure, limiting opportunities to identify the most suitable borrowing option.

Riverbanc was established to bridge this gap.

By bringing together participating commercial banks, licensed microfinance institutions, and salaried employees through a single digital marketplace, Riverbanc simplifies financial product comparison, streamlines loan applications, and improves access to transparent financial information.

The company believes technology should strengthen—not replace—the relationship between financial institutions and the people they serve.

Looking ahead, Riverbanc aims to become a trusted financial technology company with a growing presence across Sub-Saharan Africa, helping create a more transparent, accessible, and efficient financial ecosystem.

Mission, Vision & Core Values

Mission

To empower salaried employees by providing a secure, transparent, and technology-driven marketplace that connects them with trusted financial institutions, enabling informed financial decisions through innovation, efficiency, and responsible lending practices.

Vision

To become Africa's leading financial technology marketplace, connecting millions of salaried employees with trusted financial institutions through innovative, secure, and accessible digital solutions.

Core Values

Integrity We conduct our business with honesty, transparency, accountability, and professionalism.

Innovation We continuously develop practical technology that simplifies access to financial services.

Security We prioritize the protection of information by maintaining strong security practices and continuously improving our technology.

Member Success We design every solution to help Riverbanc Members make informed financial decisions with confidence.

Partnership We believe long-term collaboration with participating commercial banks, licensed microfinance institutions, regulators, and strategic stakeholders creates sustainable value for all.

Excellence We pursue excellence in governance, technology, service delivery, and operational performance.

Products & Services

Delivering Value Through Technology

Riverbanc Technology Ltd operates a secure membership-based digital marketplace that connects salaried employees with participating commercial banks and licensed microfinance institutions.

The Riverbanc Platform is designed to improve transparency, simplify access to financial products, and support informed financial decision-making.

Riverbanc does not provide loans or accept deposits. The company serves as an independent financial technology marketplace. All lending decisions, product terms, and loan agreements remain the responsibility of the participating financial institution.

Loan Comparison Marketplace

Members compare eligible loan products offered by participating financial institutions through a single digital marketplace.

Loan Refinance Opportunities

Eligible members explore refinancing options that may better align with their financial circumstances.

Digital Loan Applications

Members complete applications electronically, reducing paperwork and minimising branch visits.

Products & Services

Continued

Verified Loan Applications

Applications submitted through the Riverbanc Platform undergo verification before being referred to participating financial institutions. This helps improve application quality and supports efficient customer engagement.

Verification by Riverbanc does not constitute loan approval or a credit decision.

Complimentary Bank Account Opportunities

Where offered by participating commercial banks, eligible Riverbanc Members whose loan applications are successfully processed may receive access to a complimentary bank account. Availability and terms are determined by the participating institution.

Participating Financial Institutions

Riverbanc currently focuses on partnerships with:

- Participating Commercial Banks
- Licensed Microfinance Institutions

As an independent technology company, Riverbanc facilitates digital engagement between members and financial institution partners while maintaining a clear separation from lending activities.

Business Model

Connecting Members and Financial Institutions

Riverbanc operates a membership-based digital marketplace that creates value by connecting salaried employees with participating commercial banks and licensed microfinance institutions through secure technology.

The business model is designed to benefit all participants within the ecosystem while promoting transparency, operational efficiency, and responsible financial access.

Riverbanc Members

Compare eligible loan products
Submit secure digital loan applications
Explore loan refinance opportunities
Track application progress
Access future member-exclusive services

Riverbanc Platform

Secure digital interactions
Structured application processing
Verification workflows
Product comparison capabilities
Efficient information exchange

Financial Institutions

Digital customer acquisition
Improved operational efficiency
Greater product visibility
Streamlined application workflows
All lending decisions remain with the institution

Revenue Model & Commercial Structure

A Sustainable Commercial Model

Riverbanc has developed a diversified commercial model that creates value for Riverbanc Members, participating financial institutions, and the company itself. The model supports continuous investment in technology, cybersecurity, governance, customer support, compliance, and platform innovation.

Riverbanc Membership

Members subscribe to access the Riverbanc Platform and its growing suite of financial technology services.

Membership includes access to:

- Loan comparison marketplace
- Digital loan applications
- Loan refinance opportunities
- Application tracking
- Secure digital document management
- Future member-exclusive services and platform enhancements

Institutional Service Fees

Financial institution partners pay flat service fees for access to Riverbanc's technology platform and associated digital services.

These services may include:

- Access to verified loan applications
- Digital referral services
- Technology platform access
- Digital integration services
- Additional value-added technology services

Balanced Value Creation

Riverbanc's commercial model is designed so that every participant benefits: members gain transparent comparison and simplified access, financial institutions gain verified applications and efficiency, and Riverbanc builds a sustainable business capable of long-term innovation.

Technology, Information Security & Compliance

Technology

Riverbanc is built upon a secure, cloud-based technology platform designed to support reliable, scalable, and efficient digital financial services. The platform has been developed to simplify the borrowing journey while maintaining high standards of performance, availability, and user experience.

As Riverbanc expands, its technology architecture is designed to support increased transaction volumes, additional financial institution integrations, and evolving regulatory requirements across multiple jurisdictions.

Information Security

Information security is a fundamental responsibility of Riverbanc. The company is committed to protecting the confidentiality, integrity, and availability of information.

Key security principles include:

- Secure handling of information
- Role-based access controls
- Encryption of sensitive information where appropriate
- Continuous monitoring of critical platform activities
- Ongoing security assessments and platform improvements
- Security-aware software development practices

Compliance

Riverbanc recognises that sustainable growth depends upon strong governance and regulatory compliance. The company is committed to conducting its operations in accordance with applicable laws, regulatory requirements, and recognised industry best practices.

As the company continues to grow, Riverbanc is actively working towards aligning its operations with internationally recognised information security and governance standards, including engagement with the Bank of Zambia where applicable.

Environmental, Social & Governance (ESG)

Building Sustainable Value

Riverbanc Technology Ltd believes that sustainable business success is achieved through responsible governance, positive social impact, and sound environmental stewardship.

Social Responsibility

Riverbanc is committed to improving financial accessibility for salaried employees through secure, transparent, and technology-enabled financial services. The company seeks to promote informed financial decision-making by enabling members to compare financial products, explore refinancing opportunities, and interact with participating financial institutions through a single trusted platform.

Riverbanc believes that improving access to transparent financial information contributes to stronger households, more resilient communities, and a healthier financial ecosystem.

Governance

Strong governance is central to Riverbanc's long-term success. The company is committed to maintaining high standards of accountability, ethical leadership, regulatory compliance, responsible risk management, and operational transparency.

Environmental Responsibility

As a digital-first financial technology company, Riverbanc seeks to minimise its environmental impact by reducing reliance on paper-based processes and encouraging secure digital interactions wherever practical.

Leadership & Corporate Governance

Leadership

Riverbanc was established with the belief that financial technology should create lasting value through trust, innovation, and responsible leadership. The company's leadership is committed to building an organisation that delivers long-term value for Riverbanc Members, financial institution partners, shareholders, employees, regulators, and the wider community.

As Riverbanc grows, the company intends to strengthen its leadership capability by attracting experienced professionals across technology, financial services, cybersecurity, compliance, governance, and risk management.

Corporate Governance

Riverbanc is committed to governance practices that promote:

- Accountability
- Transparency
- Ethical leadership
- Responsible decision-making
- Regulatory compliance
- Effective oversight
- Long-term value creation

Risk Management

Riverbanc adopts a proactive approach to identifying, assessing, managing, and monitoring business risks. The company continually evaluates risks relating to information security, technology operations, regulatory compliance, third-party relationships, business continuity, and operational resilience.

Ethical Business Conduct

Riverbanc maintains zero tolerance for fraud, corruption, bribery, conflicts of interest, misuse of confidential information, and unethical business practices.

Partnership Opportunities

Building Long-Term Strategic Partnerships

Riverbanc believes the future of financial services depends upon meaningful collaboration between financial institutions and technology companies.

Partnerships with Commercial Banks

Riverbanc partners with commercial banks to support:

- Digital customer acquisition
- Secure delivery of verified loan applications
- Improved operational efficiency
- Enhanced visibility of financial products
- Better digital engagement with prospective borrowers

Partnerships with Licensed Microfinance Institutions

The platform enables participating institutions to:

- Increase product visibility
- Improve access to qualified prospective borrowers
- Streamline application workflows
- Reduce administrative complexity
- Improve digital customer engagement

Shared Value

Riverbanc believes successful partnerships are built upon trust, transparency, mutual respect, innovation, operational excellence, and long-term collaboration.

Market Opportunity & Growth Strategy

Market Opportunity

Africa continues to experience significant growth in digital financial services, creating new opportunities to improve financial accessibility through technology.

Within Zambia, salaried employees represent an economically active segment that regularly engages with commercial banks and licensed microfinance institutions. Despite an increasingly competitive lending market, access to transparent financial product information remains fragmented.

Riverbanc addresses this challenge by providing a secure digital marketplace where members can compare financial products, submit verified applications, and make informed financial decisions through one trusted platform.

Growth Strategy

Riverbanc's growth strategy is founded upon disciplined execution, strategic partnerships, responsible innovation, and scalable technology.

The company intends to:

- Strengthen relationships with participating commercial banks
- Expand partnerships with licensed microfinance institutions
- Continue enhancing the Riverbanc Platform
- Grow the Riverbanc Membership community across Zambia
- Invest continuously in information security, governance, and operational excellence
- Prepare the platform for regional expansion

Regional Expansion

Riverbanc's long-term objective is to establish operations in nine Sub-Saharan African countries. Expansion will be guided by regulatory readiness, market demand, strategic partnerships, technology scalability, and sustainable operational growth.

Strategic Roadmap

Phase One: Building the Foundation

- Incorporate Riverbanc Technology Ltd
- Develop the Riverbanc Platform
- Establish governance structures
- Build secure technology infrastructure
- Begin strategic partnership engagement

Phase Two: National Growth

- Expand Riverbanc Membership across Zambia
- Increase participating commercial bank partnerships
- Expand licensed microfinance institution participation
- Enhance member experience
- Continue strengthening information security and compliance

Phase Three: Regional Expansion

- Enter selected Sub-Saharan African markets
- Build regional financial institution partnerships
- Adapt platform capabilities for local regulatory requirements
- Continue strengthening governance and operational resilience

Phase Four: Long-Term Vision

Riverbanc aspires to become one of Africa's most trusted membership-based financial technology marketplaces. The company's long-term success will be measured not only by sustainable business growth, but also by the trust it earns from Riverbanc Members, financial institution partners, regulators, shareholders, employees, and the communities it serves.

Why Riverbanc

Our Purpose

Riverbanc exists because access to financial services should never depend on urgency, limited information, or unnecessary complexity.

We believe every salaried employee deserves the opportunity to make informed financial decisions through transparent access to financial products offered by participating commercial banks and licensed microfinance institutions.

By combining technology with trusted financial institution partnerships, Riverbanc simplifies financial product comparison, supports digital loan applications, and improves the borrowing experience while promoting responsible financial decision-making.

Our purpose is measured not only by the technology we develop, but also by the trust we earn, the partnerships we strengthen, and the positive impact we create for our members and financial institution partners.

As Riverbanc grows, we remain committed to responsible innovation, sound governance, information security, and sustainable growth while contributing to a more transparent and accessible financial ecosystem across Africa.

Brand Identity

Who We Are

Riverbanc Technology Ltd is a membership-based financial technology company dedicated to connecting salaried employees with participating commercial banks and licensed microfinance institutions through secure digital technology.

Our identity is built upon professionalism, transparency, innovation, and trust.

Brand Values

Trust We build confidence through transparency, accountability, ethical conduct, and dependable service.

Innovation We continuously improve our technology to simplify financial access and enhance the member experience.

Security We prioritise the protection of information through responsible technology and continuous improvement.

Partnership We believe collaboration creates stronger outcomes for members, financial institution partners, and the wider financial ecosystem.

Excellence We pursue excellence in governance, service delivery, operational performance, and continuous improvement.

Official Motto

Empowering Financial Choice. Building Trusted Connections.

Frequently Asked Questions

Does Riverbanc provide loans?

No. Riverbanc Technology Ltd is a financial technology company that operates a membership-based digital marketplace. The company does not provide loans, accept deposits, or make lending decisions. All lending decisions remain the responsibility of participating commercial banks and licensed microfinance institutions.

How does Riverbanc generate revenue?

Riverbanc operates a balanced commercial model. Revenue is generated through:

- Riverbanc Membership fees paid by members for access to the platform
- Flat service fees paid by participating financial institutions for access to Riverbanc's technology platform and associated digital services

Does Riverbanc charge members?

Yes. Access to the Riverbanc Platform is provided through a Riverbanc Membership. Membership provides access to the loan comparison marketplace, digital loan applications, loan refinance opportunities, application tracking, and future member-exclusive services.

Riverbanc Membership fees are separate from any charges applied by participating financial institutions.

Frequently Asked Questions

Continued

Is Riverbanc a bank?

No. Riverbanc is an independent financial technology company. The company partners with participating commercial banks and licensed microfinance institutions but does not conduct banking activities or provide regulated lending services.

Who can become a Riverbanc Member?

Riverbanc Membership is designed for salaried employees seeking transparent access to financial products offered by participating commercial banks and licensed microfinance institutions. Eligibility requirements may change as the platform expands and new services are introduced.

Why compare financial products?

Comparing available financial products allows members to make informed borrowing decisions by evaluating available options before selecting a financial product that best aligns with their individual financial circumstances.

Closing Statement

Building Africa's Trusted Financial Marketplace

Riverbanc was founded on the belief that technology can strengthen the relationship between salaried employees and regulated financial institutions through transparency, innovation, and responsible business practices.

Every stage of the Riverbanc journey is guided by a commitment to empowering members with informed financial choices while supporting financial institution partners through efficient digital engagement.

As the company grows, Riverbanc will continue investing in secure technology, strong governance, responsible innovation, and meaningful partnerships that contribute to a more connected and transparent financial ecosystem.

Our ambition extends beyond business growth.

We aspire to become a trusted partner to financial institutions, a reliable platform for Riverbanc Members, and a responsible contributor to Africa's digital financial future.

Together, we are building a future where financial opportunity is more transparent, more accessible, and more connected.
